Red arrows point to the 'Select' button next to the Authors field, the 'Select' button next to the Cover field, and the 'APPLY' button at the bottom.

### 4. Deleting a Book

To delete a book from your library, follow these steps:

- Click on the book you want to delete in the main window's table view.
- Click on the "Delete" button.
- Confirm the deletion when prompted, the app will ask for confirmation to prevent accidental deletion.

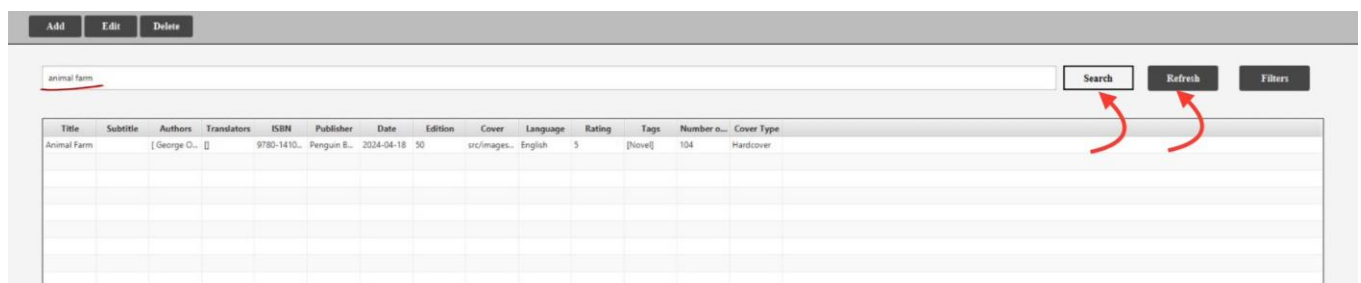

## 5. Searching for a Book

You can search for a book in your library using various criteria. Follow these steps:

- Enter the search term in the search field.
- Click on the "Search" button.
- The table view will display the search results.

To refresh the list of books in your library, click on the "Refresh" button.

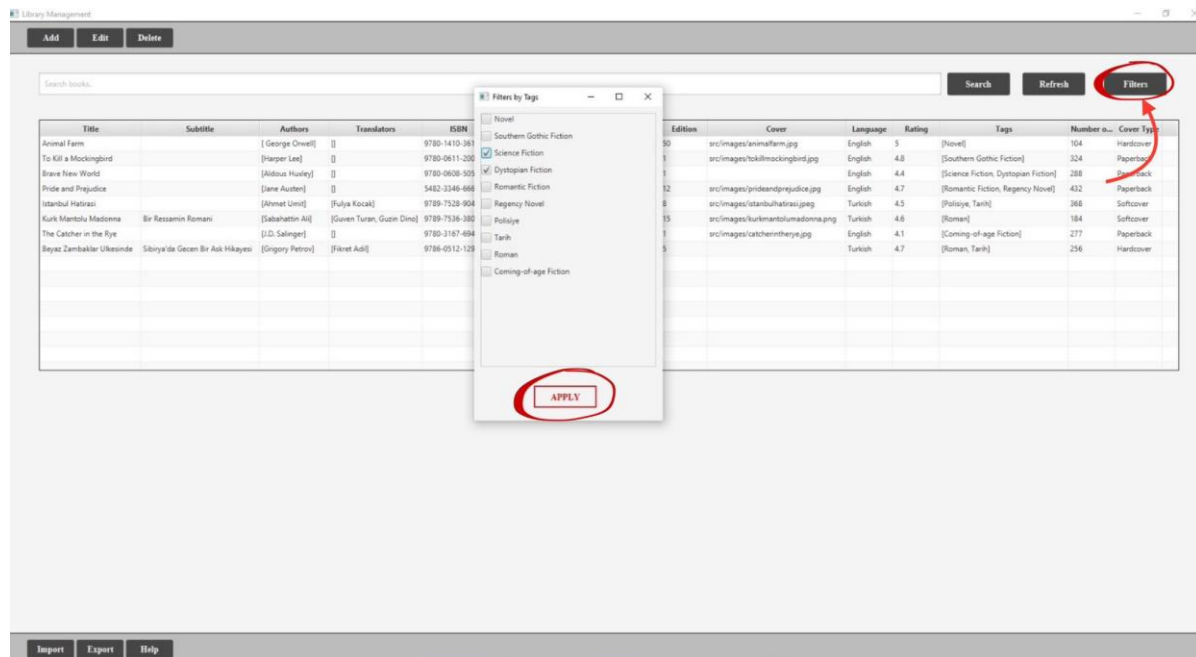

## 6. Filtering Books

To filter books in your library based on tags, follow these steps:

- Click on the "Filter" button.
- Check the checkboxes next to the tag(s) you want to filter by.
- Click on the "Apply" button.
- The table view will display the filtered books.
- To view all books again, click on the "Refresh" button.

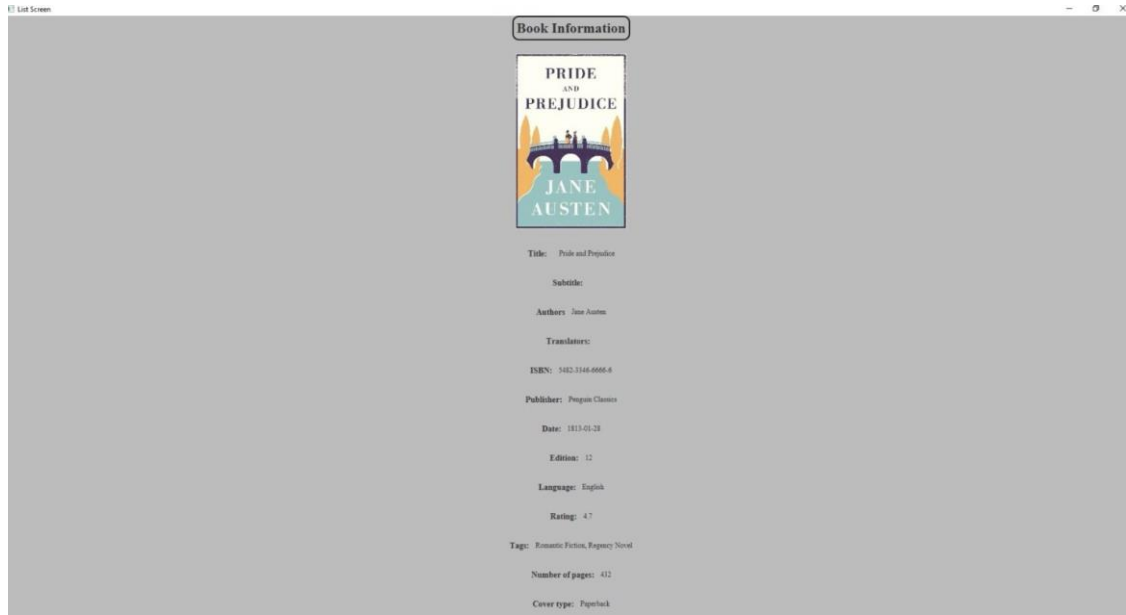

To refresh the list of books in your library, click on the "Refresh" button.

## 7. Viewing Detailed Information

To view detailed information about a book, follow these steps:

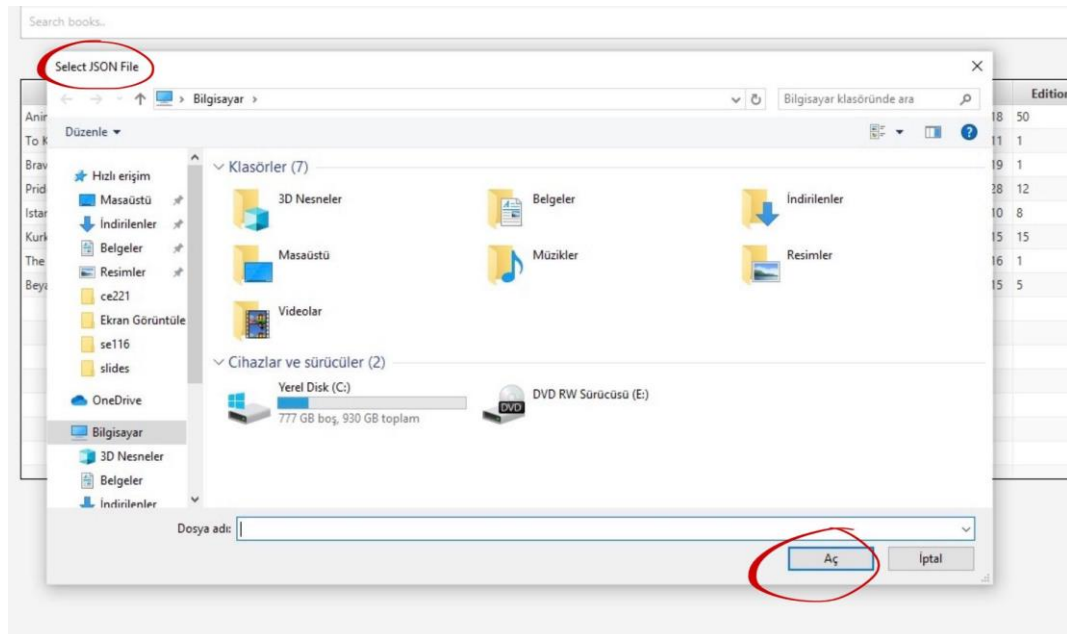

- Double-click on the book in the table view.
- A detailed info screen with the cover image will appear.

## 8. Importing Books

To import books from a file, follow these steps:

- Click on the "Import" button.
- Select the file containing the books you want to import.

## 9. Exporting Books

To export books to a file, follow these steps:

- Click on the "Export" button.
- Choose the location where you want to save the JSON file.
